Subject: Carolina Water increase

Thank you for a moment of your time. I am a Carolina Water Service customer in York county, S.C. and have been since 2001. The water service they have provided has been adequate considering the overall cost of the water and sewer service they provide. I am sure you have access to their overall operating expenses for the last six years and also the revenue they have taken in. They say they have spent 10 million on capital expenditures since 2005. All of these are worthy ventures I'm sure. In that same time I would guess they have taken in 6 to 7 million a year from the immediate customers in this area. Multiplied by 6 years and you have 36 to 42 million dollars. Again I do not have their operating expenses for the last 6 years but deducting the 10 million from the 36 to 42 million revenue still leaves a fairly nice gross profit. All I ask is that you would take a fair and sound look at the rate increase that Carolina Water Service is asking for and also at the service record they have.

Thank You

Justin Chaney
